Build Your Business with Stanton Street

If you're familiar with our company you may automatically think Stanton Street simply builds websites, but did you know we can do so much more? Aside from website development we're quite skilled in building intranets, managing social media, creating online marketing campaigns, designing complicated intranet structures, coding custom applications and so much more. Want details? Here's a quick overview of a few things we can do!

Overview of Services

Copywriting

Content is one of the most important things you'll put online. Hard-hitting keywords paired with a dash of SEO can make a world of difference.

Custom Applications

Got a problem that needs a-solvin'? We'll code ourselves silly to get you the custom application you need using the latest techniques and up-to-date languages.

Digital Advertising

Banner ads, pay-per-click campaigns... they're all derived from a great marketing plan and even greater execution. We'll work with you to reach your audience and your goals.

E-Commerce

From a few products to several, we can build a database to house your inventory. Secure payment transactions and a simple interface give your customers a reason to come back for more!

Event Registration

Start your event off on the right foot with our online registration process. Need online bill-pay? No worries, we'll make sure it's secure and easy-to-use giving your participants peace of mind.

We have this and so much more to offer. If you have an online business challenge, give us a call so we can help you conquer it! You can reach us at (915) 351-8440.

Intranet

The ability to manage mass quantities of data is necessary in the business environment of today. We can help you efficiently organize and structure documents, calendars, directories and reach out to your employees from one location. Save paper and space!

Mobile/Responsive Websites

Smartphones, tablets, consoles... we know what's out there and we know how important it is for you to reach your audience where they're at. That's why when it comes to developing mobile-friendly websites and responsive designs we're right on point.

Photography

With smartphones, bigger screens and retina technologies, imagery is increasingly playing a larger role in the online experience. We believe that having an enjoyable online experience means having custom, quality images. Now isn't that something you want to give to your customers?

Scheduling Applications

Is the day-planner just not cutting it anymore? If you have a jumbled mess of days, times and names, we can help you sort it all out with an easy-to-use program.

Social Media Management

Connecting with your clients takes a lot more than just opening up a profile online. Strategy, timing and technique will help you gain the followers you desire!

Strategy & Consultations

Brainiacs are in full-effect at Stanton Street. Do you have an online business problem that needs to be solved? We'll help you figure out the best approach and create a solution. Just think of us as your one-stop shop for all things online.

Time Clocks

Organizing your employees' time is vital to your bottom line. Our web-based time clock system allows supervisors and managers to keep track of hours and time off and export data to their payroll systems.

Vendor/Contract Management

Managing contracts, legal requirements and vendors can be tedious. That's why we have several solutions to help you keep track of it all. From vendor management to reports, we've got you covered.
